Products & Services

GMM & GMM FUND MANAGEMENT are able to provide a **full range** of investment products and services to **private** and **institutional customers**, with current Assets under Management of approx. **€460 mil.**

Distribution of Mutual Funds - UCITS

Units of the mutual funds managed by GMM are **available within the Republic of Cyprus** from its offices during normal business hours on working days.

In certain cases, units of funds may also be sold via the **sales network of associated credit institutions, management companies and investment firms**, in line with the provisions of the Republic of Cyprus' Investments Services and Activities and Regulated Markets Laws.

The company can also distribute units of the funds it manages in other **Member States** (e.g. in Greece) via **agents** certified by the competent authorities of that state.

Investment Methodology

GMM has a structured and well disciplined **investment process** in order to comply with the strict regulatory framework and to achieve defined investment goals

Risk Management

- GMM has established an **independent Risk Management Department** in order to track and measure the **market risk** (equity risk, interest rate risk, FX risk) of the portfolios, covering a wide range of investment products
- The Risk Management Department evaluates, on a daily basis, the performance of the portfolios and uses advanced statistical methods in order to calculate **VaR** (Value at Risk)
- Additional measurements which are monitored include:
 - ✓ Fund's financial limits
 - ✓ Counterparty & Concentration risk
 - ✓ Liquidity Risk
 - ✓ VAR back testing
 - ✓ Stress Testing
- Risk Management is based on the following procedure:

Competitive Advantages of GMM & GMM AIFM

- ✓ **Customized** asset management provided by qualified fund managers with extensive professional experience
- ✓ Construction of **tailor-made** investment products (UCITS, AIFs, AIFLNs, RAIFs)
- ✓ Asset Management team **focused on investment goals**, following specific investment rules and strategies
- ✓ **Structured** and **well disciplined** investment process
- ✓ **Flexibility** in decision making and strategy implementation, according to the customer's needs
- ✓ **Continuous** market monitoring and information analysis
- ✓ **Direct** communication of the client with the asset management team
- ✓ **Transparent and strict** internal procedures to ensure client requirements
- ✓ **Competitive** fee policy

Flexible & Effective Solutions

2. UCITS MUTUAL FUNDS

Key Benefits of investing in UCITS Mutual Funds

- **The Undertaking for Collective Investment in Transferable Securities (UCITS):**
 1. the **sole purpose of investing collectively** in transferable securities and / or other liquid financial instruments the funds it collects from the public
 2. its operation is based on the **principle of risk-spreading**
 3. its shares are **repurchased or redeemed**, directly or indirectly, upon the request of an investor

“The strength in unity”

- UCITS Mutual Funds are internationally considered as one of the **most effective asset management tools** available, thanks to their **low investment risk** and **high level of investor protection**.

- The **main benefits** of Mutual Funds are:

- **Professional** wealth management
- **Institutional** security / High **protection**
- **Access** to international markets (money and capital markets)
- **Wide range** of options to cover **all investor profiles**
- **Risk reduction** through investment **diversification**
- Comparatively **low costs**
- **Immediate liquidity** (max 4 days)
- **Full transparency** of information / **Daily** publication of M/F prices
- **Exemption from tax** on the amount invested to the M/F, as well as on the capital gains from the disposal of units of the fund
- **Exemption from tax** on profits earned by the M/F from sale of shares or other instruments, as well as from dividends received by companies in which the fund has invested

European Passport for GMM UCITS Funds

GMM as authorized by CySEC, can manage, market & distribute units of its Ucits Funds to investors in all other EU Member States, using the simplified regulator-to-regulator notification mechanism, without seeking permission from each Member State and without the need to comply with different national laws.

Under these conditions, **GMM Ucits Funds benefit from this “EU Passport”**, introduced under the UCITS IV directive, allowing them to be freely marketed on a public basis within all EU Member States.

Outside the EU, distribution of GMM Ucits Funds into selective jurisdictions remain via private placement and thus must satisfy local regulations that are significantly more complex and time consuming than the EU passport notification process.

Depository

GMM' s Custodian for its UCITS Funds is **Eurobank Cyprus Ltd**, which is using reputable institutions worldwide as sub-custodians

Main Depository Duties :

- ✓ Has both regulatory and contractual duties
- ✓ Safekeeping the assets of the Funds. The Management Company has no access to these assets
- ✓ The Custodian confirms unit price calculation (N.A.V.) and acts as the cashier of the Funds. It also ensures conformity with the regulation
- ✓ It also settles the trades on behalf of the Funds in the various markets
- ✓ Operates independently from the Management Company and acts for the benefit of the unit holders
- ✓ Confirms the right evaluation of the Funds assets
- ✓ Co-signs the Funds Prospectuses and Rules
- ✓ Supports the investments of the Funds, offering a **worldwide sub-custodian network**, as shown below:
