PERFORMACE SCENARIOS
July 2025 - Data 30/06/2025

Mutual Fund Performance Scenarios (Article 8 of Regulations (EU) 1286/2014, 2017/653 and 2021/2268)
Your rerurn from each product depends on future market performance. Market developments are uncertain and cannot be accurately predicted. The performance scenarios have been produced assuming the maximum possible total cost of the products. Actual charges may be lower than those used as assumptions. The data do not take into account your personal tax status, which can also affect the amount you will get. The unfavourable, moderate and favourable scenarios presented are examples where the worst, average and best performance of products over the last 10 years is used and for periods when products do not have sufficient historical data, data from their benchmark or a representative index is used where the product does not use a benchmark. Markets could perform very differently in the future. The "Stress" scenario illustrates what you could get from each product in extreme market conditions.

GMM FIXED INCOME BOND FUND (CYF000000036)

Investment:10,000 EUR		In case of early departure 1 year	In case of early departure 3 years
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.			
Extreme scenario:	How much you might be refunded less costs.	6,940 EUR	7,430 EUR
	Average performance each year.	-30.6%	-9.4%
Adverse scenario:	How much you might be refunded less costs.	8,870 EUR	8,710 EUR
	Average performance each year.	-11.3%	-4.5%
Moderate scenario	How much you might be refunded less costs.	9,920 EUR	9,770 EUR
	Average performance each year.	-0.8%	-0.8%
Favorable scenario	How much you might be refunded less costs.	11,120 EUR	10,540 EUR
	Average performance each year.	11.2%	1.8%
