What is this product?

Type

GLOBAL BALANCED FoFs SALAMIS V.C.I.C.PLC - Share Class B is a UCITS Variable Capital Investment Company, in accordance with the framework of the Law 78(I)/2012 for Collective Investment in Transferable Securities (U.C.I.T.S.) as amended and as it is in force and of Directive 2009/65/EC.

Duration

The Mutual Fund is of indefinite duration. Information on the mutual fund's dissolution can be found in the Rulebook and the Prospectus.

Objectives and Investment Policy

Investment Objective

The investment objective of the Company is the generation of income and capital gains over the medium term with medium investment risk through investments, as described in its investment policy.

Investment Policy

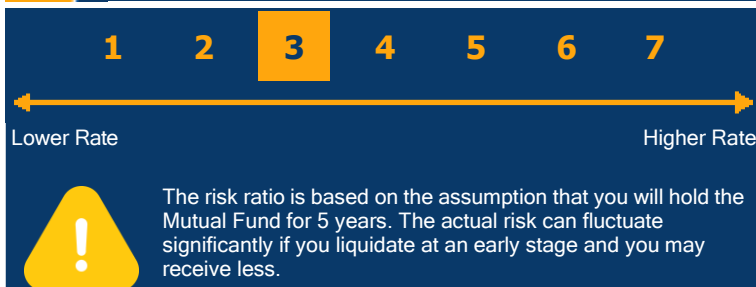

The Company seeks to achieve its investment objective primarily through investing in bond and equity Undertakings in Collective Investments in Transferable Securities (UCITS) and/or Foreign Money Market Instruments UCITS and/or in units of other Undertakings in Collective Investments (UCIs), whether or not they originate from a Member State. In addition, the Company may secondarily invest its net assets in a wide range of fixed income instruments (including, indicatively, debt securities, bonds, money market instruments) worldwide (mainly in the US, Europe, Asia and Emerging countries) as well as in transferable securities (such as shares, certificates of transferable securities, government and corporate debt securities, etc.), in money market instruments from around the globe, denominated in different currencies, in Undertakings for Collective Investment in Transferable Securities (UCITS) and/or deposits as well as derivative financial instruments. The minimum recommended period for holding shares in the Company is 5 years. Shareholders may at any time request the redemption of all or part of the shares that they hold, on any business day. For more information regarding redemptions, please refer to the section entitled "Redemption of Shares" of the Prospectus of the Company. The income from investments or from the net capital gains that will be achieved, shall not be distributed in the form of dividend but will be reinvested.

The transaction costs of the portfolio shall have a significant effect on the performance of the Company. The company's benchmark is the composite index 90% X Bloomberg Global EQ:FI 50:50 Index + 10% X Euribor 3 Months. The use of the benchmark is clearly for purposes of comparing its performance in relation to the performance of the Company.

Investor profile

The company aims at long-term investors (over 5 years), who wish to obtain both capital gains and periodic income, through investment in a diversified portfolio mainly of bond and equity UCITS units and secondarily of Money Market UCITS units or also in units of other UCI and who (investors) are willing to take a medium-low level of investment risk.

What are the risks and what can I gain?

The product does not include any capital protection in relation to reported risks, which means that a part or the total amount invested may be lost.

The summary risk indicator is a guide to the level of risk of this Mutual Fund compared to other products. It shows how much possible it is, that the Mutual Fund will lose money due to movements in the markets or due to credit risk. On a risk return scale from 1 to 7, we have ranked the Mutual Fund at 3, which is a 'medium-low' risk category.

This means that the value of the assets of the M/F and consequently the price of the share have medium risk for intense positive or negative fluctuations, reflecting changes in the prices mainly of the equities in which it invests. Other risks that are materially related to the Mutual Fund and are not adequately reflected by the Risk Indicator are:

Liquidity Risk: This derives from the difficulty in selling assets at a fair price, at the preferred time, due to the potential lack of buyers. This event may put at risk the ability of the mutual fund to liquidate its units after its investors' redemption requests.

Counterparty Risk: The risk associated with a counterparty's ability in a financial transaction to discharge its obligations such as payment, delivery and settlement.

Operational risk: Some markets are less organized compared to most international markets, and consequently liquidating assets and settling transactions on those markets could entail greater risks for the Investment Compartment.

Risk of Inflation: This has to do with a reduction in the Investment Compartment's performance at fixed prices because of a rise in the general consumer price index.

Interest rate risk: Changes in interest rates could impact on the price at which certain financial instruments are traded, such as bonds or derivatives.

Derivatives risk: Using derivatives, either to hedge risk or to effectively manage it, could substantially affect how the portfolio performs.

Performance Scenarios

What you get from this product depends on the future performance of markets. Market developments are uncertain and cannot be accurately predicted.

Investment: 10.000 euro

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum: There is no minimum guaranteed return. You could lose some or all of your investment.			
Extreme scenario:	How much you might be refunded less costs.	7,160 EUR	6,990 EUR
	Average performance each year.	-28.4%	-6.9%
Adverse scenario:	How much you might be refunded less costs.	8,540 EUR	8,430 EUR
	Average performance each year.	-14.6%	-3.4%
Moderate scenario	How much you might be refunded less costs.	9,900 EUR	9,100 EUR
	Average performance each year.	-1.0%	-1.9%
Favorable scenario	How much you might be refunded less costs.	11,040 EUR	9,870 EUR
	Average performance each year.	10.4%	-0.3%

The table describes how your investment can perform over the next 5 years if you invest 10,000 euros, assuming the maximum possible total cost of the product. The scenarios presented show how your investment may perform on a case-by-case basis, are an estimate of future performance based on past evidence and are not an exact indication. The actual return you will receive varies depending on market performance and the time you hold the product. The stress scenario shows the consequences to your investment under extreme market conditions and does not take into account the situation where we are unable to pay you or the case of early liquidation. The figures do not take into account your personal tax situation, which can also affect investment performance. Future market developments cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on the fluctuation of product prices in recent years. Actual returns may be lower.

The unfavourable scenario occurred for an investment between December 2021 - December 2022 (if you exit after 1 year) and between December 2021 - December 2025 (if you exit after 5 years).

The moderate scenario occurred or an investment between June 2024 - June 2025 (if you exit after 1 year) and between October 2019 - October 2024 (if you exit after 5 years).

The favourable scenario occurred for an investment between March 2020 - March 2021 (if you exit after 1 year) and between March 2020 - March 2025 (if you exit after 5 years).

What will happen if GMM GLOBAL MONEY MANAGERS LTD is unable to pay?

According to the law, the assets of the Mutual Fund cannot be held by the Management Company. To the contrary, the safekeeping of assets of the Mutual Fund is assigned by the Management Company, following permission of the Cyprus Securities and Exchange Commission, to a Depository which is Bank of Cyprus Public Company Limited, that is responsible for the cash monitoring and management of the transactions of the mutual fund's assets in accordance with the instructions of the Management Company. There is no compensation or guarantee scheme for the investors of the Mutual Fund.

What is the cost?

The person who advises or sells you this product may charge you with additional costs. If so, this person will provide you with information about these costs and how they affect your investment.

Diminishing of the return (RIY) shows what impact the total cost you incur has on the return on investment you may have. The total cost takes into account both direct and indirect costs regarding one-off, ongoing and additional costs and possible early redemption penalties. The amounts shown here are the cumulative cost of the product itself, over three different holding periods. It is assumed that you invest €10,000 per year. Figures are estimates and may change in the future.

Costs over time : The person who advises or sells you this product may charge you with additional costs. If so, this person will provide you with information about these costs and will indicate to you the impact that all the costs have on your investment over time.

Investment amount: 10.000 euros

Scenarios if you liquidate after:	1 year	5 years
Total Cost	810 EUR	2,370 EUR
Impact on performance (RIY) per year	8.1%	5.1%

This shows how costs reduce your performance each year during the holding period. For example, it shows that if you liquidate during the recommended holding period, your average return per year is projected to be 3.3% before cost deduction and -1.9% after deduction of costs.

Composition of Costs: The table below shows the importance of different categories of costs as well as the annual impact of different types of costs on the investment return you may receive at the end of the proposed holding period based on the underlying investment options.

One-off costs:		Default
Entrance fee:	3.00% of the amount you pay at the start of your investment.	300 EUR
Exit fee:	1.00% of the amount you pay when you liquidate your investment.	100 EUR
Current cost:		
Other current costs:	The impact of the costs we incur each year to manage your investments. GLOBAL BALANCED FoFs SALAMIS V.C.I.C. PLC - Share Class B will pay the Manager a Management Fee of up to 3.99% of the Net Asset Value annually. Additionally, the Fund is charged with the corresponding part of the operating expenses and the fees of the Company's service providers (for example: custodian fees, fund management fees (1,50%), regulatory authorities, audit fees, legal fees, marketing costs, etc.).	399 EUR
Transaction costs:	The impact of the Fund's transaction costs.	11 EUR
Additional costs		
Performance fees:	The impact of performance fee. These fees are charged on your investment earnings if the Fund performs annually better than the benchmark. (This share class will be subject to a Performance Fee of up to 20% on any positive difference between, on the one hand, the percentage change in the net price of the share and, on the other hand, the percentage change in the price of the Company's benchmark). It is emphasized that the Variable Performance Fee is paid even if the Fund has a negative performance if it has exceeded the performance of the benchmark.	0 EUR

How long do I need to hold this product and can I withdraw money before it expires?

Recommended holding period: 5 years

The Mutual Fund does not have a minimum required holding period. You have the option to redeem part or all of your investment in any working day. The redemption of the units of UCITS is compulsory at the request of the unit-holder. In exceptional cases, where the circumstances require it and when it is considered necessary for the interest of unit-holders, it is permitted, at the request of the Management Company and following permission of the Cyprus Securities and Exchange Commission to suspend the redemption of units of the UCITS for a period up to one (1) month. The above suspension may be extended for a maximum of another one (1) month. The suspension of the redemption and its ceasing or revocation are published on the Company's website on the internet.

The announcement of the suspension of the redemptions specifies also when it is ended. During the suspension of the redemptions of units of the UCITS, applications for redemption by unit-holders may not be submitted.

How can I submit a complaint?

The Management Company has a structured Complaint Management Procedure and proceeds immediately to the appropriate actions in order to respond within a reasonable time frame. You can submit your complaint regarding the Mutual Fund or the services you receive for it in one of the following ways:

- by email to info@global-mm.com,
 - by post, at the address: 26B Agion Omologiton, 1080 Nicosia Cyprus
- In any case, you can contact the Management Company by phone at: +357 22 205858.
